

To whom it may concern:

Please do not replace translator stations with Low Power FM stations. Many people have been listening to K-LOVE radio in my area for years and would be very upset if it went away. Radio stations with the content of K-LOVE are very hard to find and K-LOVE radio provides a very important service to many communities around the nation. As a parent I am very happy with K-LOVE's commitment to quality family radio with absolutely no questionable content. To have this taken away would be very disappointing. Thank you for hearing my comments. Sincerely,
Barry
